Share These Tips with Your Parents to Help You Stay on Track for a Successful Future

1. Encourage your student to choose challenging courses in high school.	6. Learn about college entrance requirements early so your student takes the right high school courses.
2. Be involved in high school orientation, planning sessions, school events, and website.	7. Encourage your student to set up a My CFNC account to enter courses and activities, starting in 9th grade.
3. Learn about how to save for your student's college plans and find financial aid.	8. Help your student develop good study habits and time management skills and also be involved.
4. Talk with your student about college and career plans early.	9. Ask questions. Talk to your student's school counselor and teachers about planning for college.
5. Meet regularly with teachers and school counselors to discuss student's progress.	10. Use free CFNC.org resources to prepare for careers and plan, apply and pay for college.
